PART 972-MILK IN THE TRI-STATE MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 972.0 Findings and determinations-(a) Findings upon the basis of the hearing record. Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (heremafter referred to as the "act") and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Supps. 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159) a public hearing was held on March 7-8, 1947, upon a proposed marketing agreement and to proposed amendments to the order, as amended, regulating the handling of milk in the Tri-State marketing area; and the decision (12 F. R. 4144) was made, with respect to the amendments. by the Secretary on June 20, 1947. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of

the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the de-

clared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to the persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which hearings

have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amend-ments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) Additional findings. It is necessary to make effective promptly the present amendments to the order, as amended, to reflect current marketing conditions and to give producers immediately some assurance of a substantial seasonal increase in prices as an incentive to a needed increase in milk production during the fall and winter months of 1947-48. Any delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the Tri-State marketing area and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order, for 30

PART 974—MILK IN COLUMBUS, OHIO, MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 974.0 Findings and determinations—(a) Findings upon the basis of the hearing record. Pursuant to Public Act No. 10, 73d Congress (May 12, 1933) as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Supps., 900.1 et seq., 11 F. R. 7737, 12 F. R. 1159) a public hearing was held on March 10-14, 1947, upon a proposed marketing agreement and to proposed amendments to the order, as amended, regulating the handling of milk in the Columbus, Ohio, marketing area; and the decision (12 F. R. 4147) was made, with respect to the amendments, by the Secretary on June 20, 1947. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the de-

clared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to the persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which hearings have been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) Additional findings. It is necessary to make effective promptly the present amendments to the said order, as amended, to reflect current marketing conditions and to give producers immediately some assurance of a substantial seasonal increase in prices as an incentive to a needed increase in milk production during the fall and winter months of 1947-48. Any delay in the effective date of this order, as amended, and as hereby further amended, will seriously threaten the supply of milk for the

Columbus, Ohio, marketing area, and, therefore, it is impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order for 30 days after its publication. (See section 4 (c) Administrative Procedure-Act, Pub. Law 404, 79th Cong., 60 Stat. 237.)

(c) Determination. It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping the milk covered by this order, as amended) of more than 50 percent of the volume of milk covered by this order, as amended and as hereby further amended, which is marketed within the Columbus, Ohio, marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area; and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, amending the order as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

area; and
(3) The issuance of this order, further amending the aforesaid order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (April, 1947) were engaged in the

production of milk for sale in the said

marketing area.

It is hereby ordered, That such handling of milk in the Columbus, Ohio, marketing area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR, Parts 04a, 04b]

FIRE PREVENTION IN AIR CARRIER AIRCRAFT

JUNE 26, 1947.

A review of the fire prevention regulations adopted by the Civil Aeronautics Board on September 20, 1946, reveals that practical application of these regulations requires minor changes in substance and some clarification of language. The proposed changes in substance are in line with the recently proposed International Civil Aviation Organization Airworthiness Standards which require the installation of fire detectors in the engine power section, irrespective of the presence of a shroud between the power and accessory sections. The implementation of the pertinent ICAO Standards by their inclusion in the Civil Air Regulations is considered, in the public interest.

Pursuant to section 4 (a) of the Administrative Procedure Act, the Safety Bureau of the Civil Aeronautics Board hereby gives notice that the Bureau will propose to the Board amendments to the Civil Air Regulations as follows:

1. Amend the last paragraph of § 04a.-062 to read as follows:

All aircraft certificated under the transport category, the manufacture of which is completed after September 30, 1947, shall employ with the following sections of Part 04b of the Civil Air Regulations as amended July — 1947 §§ 04b.075, 04b.38210, 04b.38230, 04b.3824, 04b.38251, 04b.38252, 04b.4113, 04b.4211, 04b.4231 (c) 04b.425 through 04b.4251, 04b.4320, 04b.4321, 04b.433, 04b.434, 04b.441 and subsections, 04b.470 through 04b.472, 04b.49 through 04b.4902, 04b.491 and 04b.4910 through 04b.493.

2. Amend the last paragraph of § 04b.00 to read as follows:

All aircraft certificated under the transport category, the manufacture of which is completed after September 30, 1947, shall comply with the following sections as amended: §§ 04b.075, 04b.38210, 04b.38230, 04b.3824, 04b.38251, 04b.38252,

04b.4113, 04b.4211, 04b.4231 (c) 04b.425 through 04b.4251, 04b.4320, 04b.4321, 04b.433, 04b.434, 04b.441 and subsections, 04b.470 through 04b.472, 04b.49 through 04b.4902, 04b.491, and 04b.4910 through 04b.493.

3. Amend § 04b.49 to read as follows:

§ 04b.49 Powerplant fire protection. Designated fire zones comprise the following regions:

Engine power section.

Engine accessory section.

Complete powerplant compartments in which no isolation is provided between the engine power section and the engine accessory section.

Auxiliary power unit compartments. Fuel burning heater and other combus-

tion equipment installations.

Such zones shall be protected from fire by compliance with the following require-

4. Amend the last clause of the first sentence in § 04b.4901 to read as follows: "shall be flexible fire-resistant lines with fire-resistant end fittings of the permanently attached, detachable, or other approved types."

5. Add the following clause at the end of the last sentence of § 04b.491 (a)

"* * * except in the case of engine power sections which are completely isolated from the engine accessory section by a fireproof diaphragm complying with the provisions of § 04b.4700."

6. Amend § 04b.491 (b) to read as follows:

(b) The fire extinguishing system, the quantity of extinguishing agent, and the rate of discharge shall be such as to provide, two adequate discharges. It shall be possible to direct both discharges to any main engine installation. Individual "one-shot" systems shall be acceptable in the case of auxiliary power units, fuel burning heaters, and other combustion equipment.

The Safety Bureau invites those interested to offer comments regarding the proposed amendment. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Wash-

ington 25, D. C., for receipt wiven 30 days from the date of this public office. (52 Stat. 984, 1007; 49 U. S. C. 425 551)

GYROSCOPIC BANK AND PITCH INDICATOR JUNE 26, 1947.

Section 04b.51 (a) (5) currently requires that all airplanes subject to certification under the airworthiness requirements of Part 04b be equipped with a non-upsetting type gyroscopic bank and pitch indicator. A study of available instruments indicates that at this time no instruments of the non-upsetting type are available which would be considered sufficiently reliable in all respects. It appears therefore that at least for the present time safety would be served better if instruments which do not meet this restriction but which experience has shown to be reliable were allowed to be used.

Pursuant to section 4 (a) of the Administrative Procedure Act, the Safety Bureau of the Civil Aeronautics Board hereby gives notice that the Bureau will propose to the Board an amendment to the Civil Air Regulations deleting the words "non-upsetting type" from § 04b.51 (a) (5)

The Safety Bureau invites those interested to offer comments regarding the proposed amendment. Comments in writing should be addressed to the Safety Burêau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)
